What We Do

Gulf Trading Construction Solutions is a specialist contracting company providing engineered flooring, wall, and decorative surface solutions for residential, commercial, and mixed-use developments.

We support developers, consultants, and main contractors with technically sound finishes that meet project specifications, performance requirements, and aesthetic intent.

Our scope includes terrazzo flooring systems, decorative concrete, architectural wall finishes, and bespoke surface applications. We are involved from early-stage material selection and mock-ups through to installation and final handover, ensuring full compliance with approved drawings, samples, and method statements.

With a strong focus on workmanship, quality control, and coordination on site, we deliver durable, well-executed finishes that perform over time and integrate seamlessly with the overall project design.

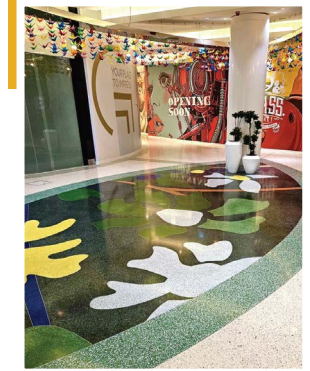

Terrazzo Flooring

High-performance terrazzo flooring systems designed for durability, consistency, and architectural appeal. We specialize in large-scale commercial and residential terrazzo applications, executed with precision to meet technical specifications and aesthetic requirements.

Specializations:

- Cementitious terrazzo
- Epoxy terrazzo
- Precast terrazzo elements
- In-situ poured systems

Key Benefits:

Extremely durable for high-traffic areas

Seamless, low maintenance finish

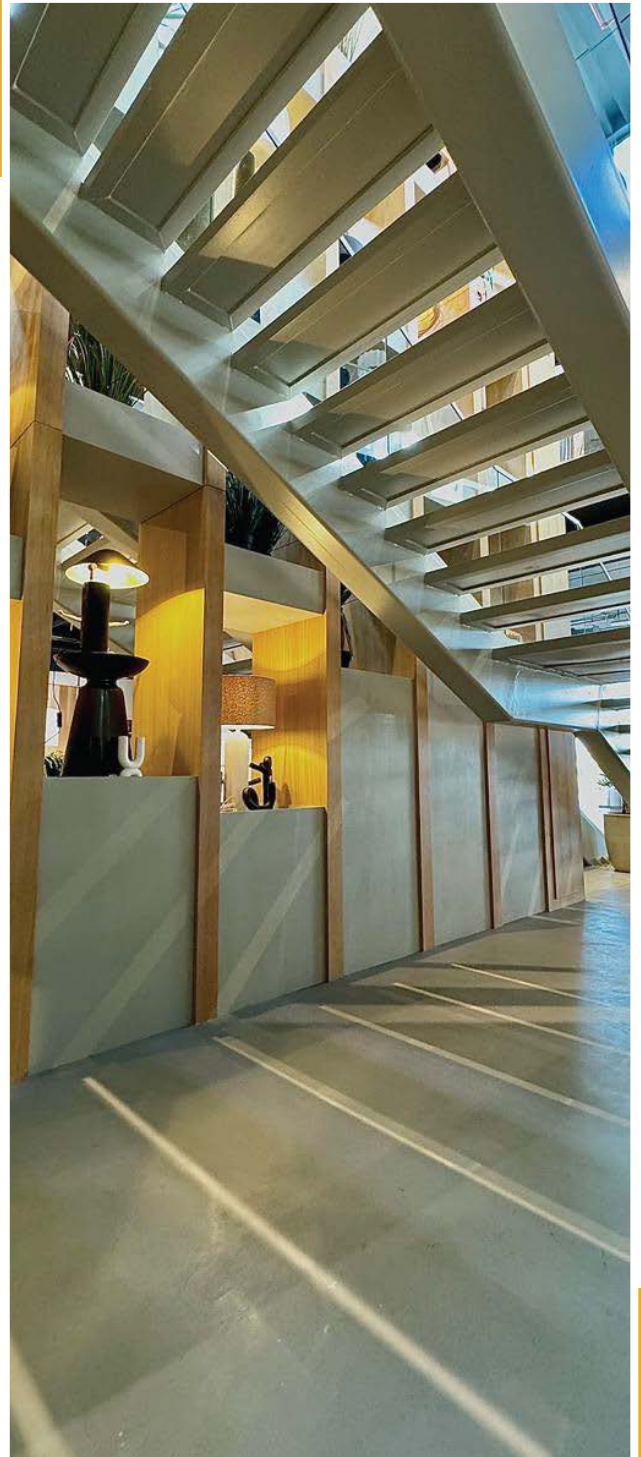

Wide range of aggregates, colors, & finishes

Suitable for malls, airports, residential towers, & public spaces

Microtopping

A modern, cement-based coating applied in thin layers to transform existing surfaces without demolition. Microtopping delivers a seamless, contemporary look for floors, walls, staircases, and furniture.

Key Benefits:

Ultra-thin
application

Seamless and
joint-free

Ideal for
renovations

Contemporary,
minimalist finish

Stone Carpet

A decorative flooring system made from natural stone aggregates bound with resin. Stone carpet provides a textured, elegant appearance and is suitable for both indoor and outdoor applications.

Key Benefits:

Natural and
luxurious look

Slip-resistant
surface

Indoor & outdoor
compatibility

Custom stone
blends and colors

Epoxy & PU Flooring

High-performance resin flooring solutions engineered for durability, hygiene, and chemical resistance. Ideal for industrial, commercial, and specialized environments.

Key Benefits:

High abrasion and
chemical resistance

Seamless and
hygienic

Custom thickness
and finishes

Suitable for industrial
and commercial use

Screed

Engineered screed solutions providing accurate levels, strength, and compatibility with all final floor finishes. Our screeding services are executed to meet project tolerances, program requirements, and substrate conditions.

Types of Screed:

- Ready-mix screed for large-scale and fast-track projects
- Dry-mix screed for controlled quality and specialized applications
- Bonded, unbonded, and floating screed systems

Key Benefits:

High
compressive
strength

Precise
level
control

Compatible with
tiles, terrazzo, resin,
and other finishes

Suitable for residential,
commercial, and
industrial projects

Decorative Wall Textured Finishes

Artisan wall finishes that add depth, texture, and character to interiors. From subtle textures to bold statement walls, our finishes elevate architectural spaces.

Key Benefits:

Custom
textures and
patterns

Premium
handcrafted
finishes

Suitable for
residential and
commercial interiors

Enhances
architectural
aesthetics

Waterproofing

Comprehensive waterproofing solutions designed to protect structures from water ingress, dampness, and long-term deterioration. Systems are selected based on project requirements, exposure conditions, and substrate type.

Waterproofing Systems:

- Cementitious waterproofing
- Bituminous membranes
- Liquid-applied membranes (PU, acrylic)
- Torch-applied membranes
- Crystalline waterproofing systems

Application Areas:

- Basements and foundations
- Roofs and podiums
- Wet areas and water tanks

Key Benefits:

Long-term
moisture
protection

Prevents
structural
damage

Compatible with
new construction
and retrofit projects

Applied in
compliance with
project specifications

Sports Flooring

Key Benefits:

Shock-absorbing
systems

Slip-resistant
and durable

Compliant with
sports standards

Suitable for gyms,
courts, and
recreational areas

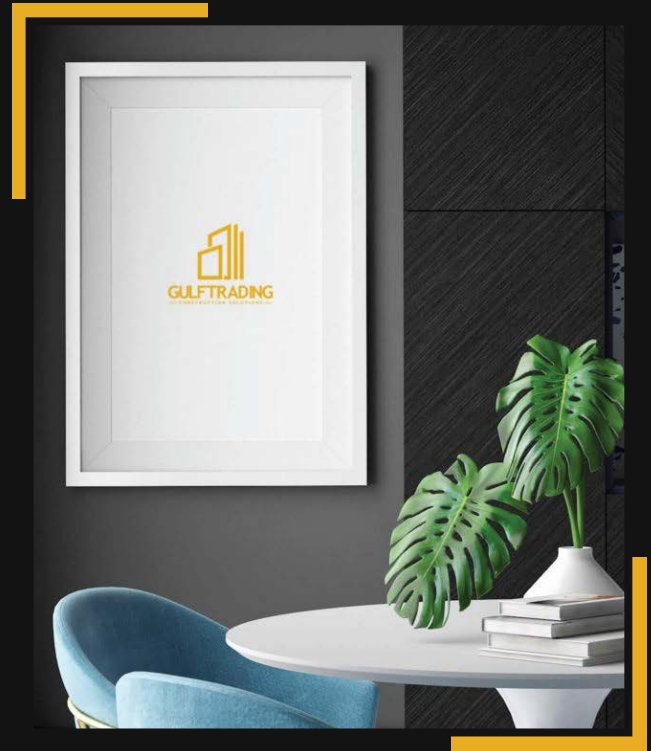

Specialized flooring systems engineered for performance, safety, and durability. Designed to meet the functional requirements of indoor and outdoor sports facilities.

ABOUT US

Founded in 2011 in Sharjah, UAE, Gulf Trading Construction Solutions is a leading specialist in decorative floor and wall finishes. The company has built a strong reputation for excellence and innovation, delivering high-quality solutions such as microcement, terrazzo, polished concrete, epoxy and PU flooring, resin bond gravel, decorative textured paint, and sports flooring. With an extensive portfolio that includes major clients like Emaar, Damac, Nakheel, and Dubai Municipality, the company is recognized as a trusted and dominant force in the regional construction industry.
